## Introduction:

**AMAROX INDUSTRIES PVT. LTD.** is a premier provider of high-quality fabrication and machining components, catering to a wide range of industries including automotive, aerospace, heavy machinery, construction, and more. With a commitment to precision engineering and superior craftsmanship, AMAROX INDUSTRIES has established itself as a trusted partner for clients seeking robust, customized, and cost-effective fabrication and machining solutions.

## Our Activities:

We have a tool room - cum – production set-up of universal machines to perform most of the basic operations in-house. We also execute jobs involving acrylic / cut-outs / bending / pasting of Acrylic- Polycarbonate as per drawing

## Our Expertise:

- Comprehensive Fabrication Services
- Precision Machining and CNC Operations
- Custom Component Manufacturing
- Prototyping and Product Development
- Assembly and Finishing Solutions
- Quality Assurance and Testing

## Facilities and Capabilities:

Our state-of-the-art manufacturing facility is equipped with advanced CNC machines, laser cutting tools, welding equipment, and comprehensive quality testing systems. Our skilled workforce, combined with modern technology, ensures that every project meets stringent quality standards and precise specifications.

## Quality Commitment:

At AMAROX INDUSTRIES, quality is paramount. We adhere to international quality standards and implement rigorous testing procedures at every stage of production. Our dedicated quality control team ensures that each component delivered is flawless and ready for integration.

## Why Choose Us:

**Customized Solutions:** Tailored fabrication and machining to meet unique client specifications.

**Expertise:** Decades of combined industry experience and technical proficiency.

**State-of-the-Art Facility:** Equipped with advanced machinery and technology.

**Timely Delivery:** On-time project completion and prompt delivery.

**Competitive Pricing:** Cost-effective solutions without compromising on quality.

## Production Facilities:

- Our current manufacturing facility includes:
- Turning (Victory Lathe),
- Milling (3 axis DRO),
- Panel Saw (Jasjite Industries)
- Precision Circular Sawing (Jasjite Industries)
- Band Saws (Vertical / Horizontal)

## Machining Capabilities

Cuttingm/c

Drillingm/c

VMCm/c

Weldingm/c

Weldingm/c

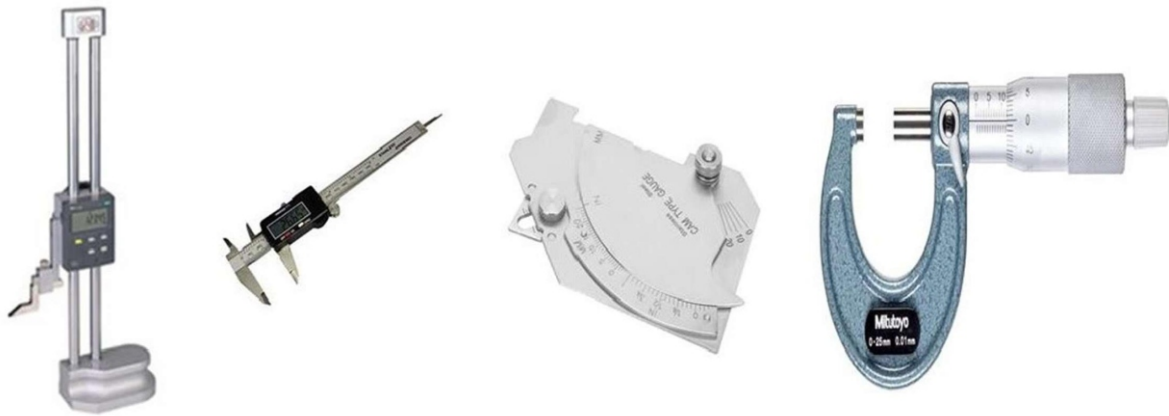

TIGWeldingm/c

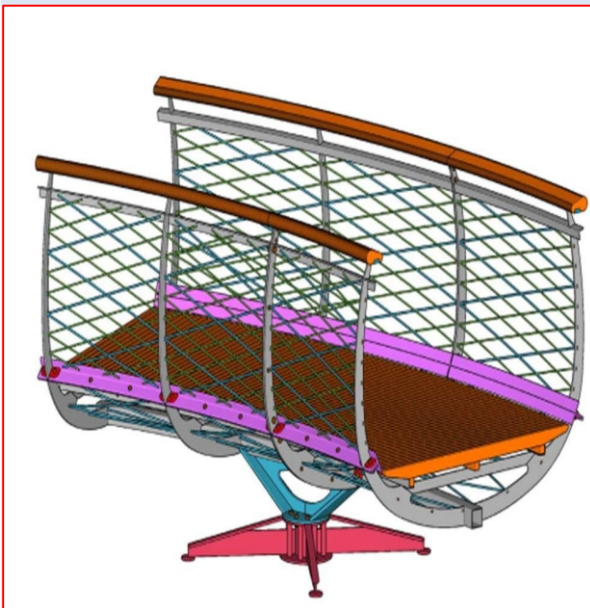

## Measuring Equipments:

- Vernier calipers (Digital, Dial, Plain) Micrometer, Bore Gauge
- Simple linear measurements tools (Scale, Measuring tape, etc.)
- Angle measurements (Degree Protractor, Bevel protractor with magnification),
- Right Angles
- Surface Plate (Casting
- Height Gauge
- Miscellaneous measuring & setting equipments (Dial stand with both poppet & regular Dials,
- Magnetic V-Blocks, Parallel Blocks, Radius Gauge etc.)

## Product Gallery

Parts Manufactured By Us

## Parts Manufactured By Us

## Applications:

1. Pharmaceutical Industry
2. Robotics & Industrial Automation
3. Food Processing Plant
4. Bulk Material Handling Systems
5. Bottling Plants / Conveyors
6. Automobile / Marine / Earthmoving Industry
7. Jigs / Fixture / Tooling manufacturers
8. Steel / Cement / Processing Plant
9. Chemical / Sugar / Boiler / Power Plant
10. Thermal Insulation Parts (Bakelite, etc)
11. Machine Tool Components  
(Bushes, End Stoppers, etc)
12. General Engineering Application
